BEST
business now before the public. You can make money faster at work for us than at anything else. We will start you \$12 a day and upwards made at home by the industrious Men, women, boys and girls wanted everywhere to work for us. Now is the time. You can work to spare time only or give your whole time to the business. You can live at home and do the work. No other business will pay you nearly as well. No one can fail to make enormous pay by engaging at once. Costly outfit and terms free. Money made fast, easily and honorably. Address: PRICE & CO., Augusta, Maine. nol7

GOLD.
Great chance to make money. These who always take advantage of the good times for making money that are offered, generally become wealthy, while those who do not improve such chances remain in poverty. We want many men, women, boys and girls to work for us right in their own localities. Any one can do the work properly from the first start. The business will pay more than ten times the wages. Expensive outfit furnished free. No one who engages fails to make money rapidly. You can devote your whole time to the work, or only your spare moments. Full information and all that is needed sent free.
no19 STINSON & CO., Portland, Maine.

\$6 a week in your own town. \$500 at free. No risk. Everything new. Capital not required. We will furnish you everything. Many are making fortunes. Ladies make as much as men, and boys and girls make great pay. Reader, if you want a business at which you can make great pay all the time you work write for particulars to no10 H. HALLETT & CO., Portland, Maine.

THE REGULAR ANNUAL RACING MEETING!

At Fort Bidwell, California,

Will be given by the

BIDWELL JOCKEY CLUB

—ON—

JUNE 15th, 16th, 17th, 1882.

PROGRAMME OF RACES.

FIRST DAY.

1st Race—Running Race, Single Dash, Half Mile—Purse..... \$100 00
2d Race—Colt Race, Single Dash—Purse..... \$125 00

SECOND DAY.

1st Race—Running Race, Single Dash, 600 Yards—Purse..... \$75 00
2d Race—Running Race, Single Dash, Three-Quarters Dash—Purse... \$100 00

THIRD DAY.

1st Race—Running Race, Half Mile and Repeat—Purse..... \$150 00
2d Race—Running Race, Single Dash, One Mile—Purse..... \$125 00

Twenty-five per cent. entrance fee will be charged, and all entrance fees will be added to the purses. One-fourth of each of the above purses to go to the second horse.

Any horse winning two of the above purses will be excluded from running in any other race during the Meeting.

All horses running for the above purses shall carry entitled weights.

Three or more horses to enter, and two or more to start, to make any of the above races.

All entries to be closed at 8 P. M. sharp, evening previous to each day's racing.

Races to conclude with a Consolation Purse for all beaten horses.

Pacific Coast Rules to govern all the above races.

CAPT. C. M. BAILEY, President.

REPUBLICAN

STATE CONVEN-

TION.

At the called meeting of the Republican State

Central Committee of Nevada, held at Virginia,

March 14, 1882, it was resolved that a State Con-

vention should be held at

Reno, Washoe County, September

4th, 1882.

And that the apportionment of delegates from

the several counties of the State to said Con-

vention should be as follows:

Churchill.....1 Douglas.....

Esmeralda.....7 Elko.....

Eureka.....12 Humboldt.....4

Lander.....6 Lyon.....4

Lincoln.....4 Nye.....4

Ormsby.....7 Storey.....27

Washoe.....8 White Pine.....4

Total.....97

The following resolutions were also adopted

Resolved, That the delegates to the State Con-

vention be elected at Primaries, and that the

various County Central Committees be request-

ed to call said Primaries on Saturday, August

19th, 1882.

Resolved, That if a vacancy should occur in

any delegation after the Primaries are held,

said vacancy shall be filled by the remaining

delegates.

Resolved, That any county may elect delegates

to the State Convention at a County Convention,

the members of which shall have been elected

at regular primaries, held on or before the said

19th of August, 1882

The following test was adopted and recom-

mended for use at the Primaries: "Are you a

Republican, and will you support the nominees

of the Republican State Convention?"

BOARD OF COUNTY COMMISSIONERS,

Washoe County, Nevada, May 1st, 1882.

Present—Joseph Frey, Chairman; D. H.

Lodge, R. H. Kinney; Geo. A. Rankin, District

Attorney; B. S. Osburn, Clerk.

It appearing to the Board that the order heretofore

published in the Plaindealer, on the 18th

day of February, concerning the apportionment

of the tax for the construction of a sidewalk

along the north side of block Q, in the town of

Reno, contained a misdescription of the block,

the same being described as block O. It is or-

dered that the said order be published in the

DAILY NEVADA STATE JOURNAL, for two consecu-

tive weeks, to-wit:

ORDER—It appearing to the Board of County

Commissioners that heretofore, to-wit on the

3d day of October, 1881, a petition of the major-

ity of the frontage property owners along the

north side of block Q, in the town of Reno,

praying an order of this Board for the construc-

tion of a plank sidewalk along said block, and

that on the 7th day of November, 1881, after

due consideration and notice thereof, published

in the Plaindealer, a newspaper published in

said town of Reno, for the period of two consecu-

tive weeks, and it further appearing that

said sidewalk was constructed as per the order of

this Board by all the frontage property along

said block, except seventy-five feet, to-wit fifty

feet along the front of lots 16 and 17, owned by

I. B. Marshall, and twenty-five feet along the

front of lot 14, belonging to the Western Union

Telegraph Company, in said block, and the

Board thereupon advertised for bids for the

construction of said seventy-five feet of side-

walk and it appearing that the bid of Joseph

Odet, in the sum of seventy-five dollars, was

the lowest and best bid, and the same being

accepted, and it further appearing that said

walk has been constructed by said Joseph Odet

along the front of lots 14, 16 and 17, and that

the cost thereof is \$75.

Now therefore, it is ordered that the cost of

the construction of said sidewalk be apportioned

among the frontage owners of said lots as fol-

lows: To the said I. B. Marshall, owning lots

16 and 17, 50 feet, \$50; to the said Western

Union Telegraph Company, owning lot 14, 25

feet, \$25.

THE NEXT LEGISLATURE.

While there is always more or less political interest attached to the election of a Legislature in Nevada, this is an off year so far as the selection of a United States Senator is concerned, and with the exception of the State Senators to be chosen this Fall, the Senatorial question will not be an important factor in the election of members of the Legislature. Through the magnanimity of the last Senate, the Republicans being largely in the majority, a bill was passed reducing the next Legislature to a membership of sixty, the Assembly to consist of forty and the Senate of twenty. In order to cut down State expenses, the Republicans, by their stand on this question, virtually turned over the control of the next State Senate to the Democrats, for the tidal wave which floated Col. J. G. Fair into the U. S. Senate swept nine Democratic State Senators into the Capitol at Carson, the Republicans only electing Hobart, of Eureka, and Hammond, of Carson. T. T. Fox and J. A. Brumsey, of Storey, Jerry Schuchling, of Washoe, W. J. Westerfield, of Lyon, Chas. McConnell, of Humboldt, J. B. Tolley, of Elko, W. H. Henderson, of Lincoln, Thos. Rockhill, of White Pine, and J. T. Williams, of Nye, are the Democratic hold-overs. As eleven will constitute a majority in the next Senate, the Democrats need but two to give them the necessary number. The nine State Senators to be elected this Fall must be chosen from Esmeralda, Douglas, Ormsby, Storey, Washoe, Churchill, Elko, Eureka and Lander. The Republicans have more than an even show to elect their candidates in each county, excepting Churchill, Elko and Lander, these three being naturally Democratic, but should Kaiser be renominated in Churchill, and Farrell in Lander, the Republicans would carry those two counties, so that it is possible that the next Senate may be equally divided, and the Lieutenant Governor have the casting vote on all political questions. But even conceding that the Senate will be Democratic by one or two majority, we consider it certain that the Legislature will be Republican on joint ballot, for of the forty members of the Assembly to be chosen the Republicans are reasonably certain of having the ten from Storey, one from Douglas, three from Eureka, two from Esmeralda, one from White Pine, two from Lyon, three from Ormsby, three from Washoe, or twenty-five in all. The chances are that this number will be increased to thirty, rather than suffer any reduction.

California's Racers.

The New York Spirit of the Times considers that the Spring meeting of the Pacific Coast Blood Horse Association at San Francisco has been one of the most memorable events in the racing history of California. It says: "The silly Duchess of Norfolk must be of extreme merit. She has added to Norfolk's cap the gayest feather the Jersey Derby winner ever wore. By many, Norfolk is still regarded as the best of Lexington's sons, and it may be that spending the best years of his life in California, and denied the chances accorded to his great contemporaries the turf has lost one of its greatest fathers—one who would have rivalled the undying glory he won upon the course. Californians seem to have turned the trump in the two-year-old Gano, bay colt, by Grinstead, from Santa Anita, by Virgil [quoting his pedigree]. We have tabulated his pedigree for the reason that the colt is expected to appear this season at Chicago, Long Branch and Shepley Bay, and his encounters with the crack colts of the East will cause him to attract the attention of the entire racing world."

The Reno Journal man asserts that the movement to appoint the Republican Convention at Reno had no connection with any man for any office. The Washoe Lyceum is pursuing a mistaken policy in publishing such untrue statements. The truth is right to the contrary of the Journal's assertion.—Carson Index.

Judge, we have no desire to bandy words with you. So far as the editor of the Journal knows, what he has stated is true. He made the fight for Reno, and the candidacy of any man, or set of men, never entered into the calculation. Your statement implied that he was cognizant of "state" tricks. If that is what you mean, spit out what you know about it, or, as big as you are, we shall be compelled, with such a notice before our eyes as you have published, to denounce you as a liar.

It is expected that the output of ore from Wood river this year will be at the lowest calculation 2,000 tons.

The Appropriation Bill.

The House Committee on Appropriations, after four days consideration of the Legislative, Executive and Judicial Appropriation bill, completed that measure Friday and authorized Representative Kasson to report it to the House. The principal features of the bill are as follows: It increases the clerical force engaged in the preparation of pension cases to such an extent as to enable the Commissioner to examine and adjust all pending claims within three years. It directs the Secretary of War to transfer all the records in the office of the Surgeon-General of the army, from which evidence is furnished for the settlement of invalid pensions, and also the clerks employed upon such records, to the office of the Adjutant-General of the army, if, in his judgment, the work of furnishing such evidence could be facilitated so that the number of clerks employed upon such work can be materially reduced in number by such transfer. It authorizes the Adjutant-General to use, part of the State Department building for offices, and thus effect a saving of \$15,000 per annum, now paid for rental of offices in other and less secure buildings. Finally, it strictly prohibits the employment in Executive departments of any other clerks than those for which it specially provides, and renders impossible many abuses and irregularities which characterize the old system of clerical appointment.

A comparison of the bill with the estimates upon which it is based, and with the expenses for the same Department in the current year, shows the following results: Estimates for 1883, \$21,175,904; amount appropriated by the bill, \$19,691,047; decrease, \$1,484,855; amount appropriated for the current year, \$19,040,679.

Lapsed Railroad Grants.

A Chicago Times special from Washington says: The House Judiciary Committee has had before it nearly all Winter the subject of lapsed railroad grants. The Texas-Pacific and Northern Pacific Railroads are the roads in which speculators have been the most interested. The concessions given railroads involved enormous tracts of land, and if they were taken away from the corporations now, on account of not having fulfilled their contracts, the result would be disastrous to the stockholders. A subcommittee having this in charge has decided upon the general report upon the subject. This report will probably satisfy the stockholders of the Pacific road. A full committee will probably adopt the report of the sub-committee. The report states in effect that these grants have lapsed, but that the enforcement of the penalties lies with the courts and not with Congress. It suggests, also, that a few of the smaller roads in the South, whose companies have virtually gone out of existence, shall be proceeded against, and the books of these practically defunct corporations be again thrown open to the public. The effect of the recommendations will be to relieve the roads which exhibit any ability or willingness to complete their work, by permitting them to retain their grants. The case, if remanded to the courts, will involve so much delay that the roads will have ample time to get through with the work, and probably defeat any contemplated reversion of the lands to the United States.

San Francisco and New Orleans Soon to be United By Rail.

Ninety miles of track laying remains to be done in Texas to make through railroad connection between San Francisco and New Orleans. All the men obtainable are being put on the work, which is expected to be completed by September 1. About twenty-five miles of the work is difficult and will require some twenty-five trestle bridges.

That was a very unkind thing of the little Carson Bee in its issue of the 10th to copy and give credit to the Washington Star for an article on the "Status of the next Senate," which had appeared in the Virginia Chronicle editorial columns a day or two before under the caption "The Complexion of the Next Senate."

"DOING" THE STATE.—Apropos of the fact that Harper's Weekly and Magazine and The Century are displaying considerable activity in writing up and picturing up this coast, it is stated that W. H. Bishop, correspondent, and J. D. Strong, artist, of the former firm, have just finished a series of articles embracing sketches of Monterey, San Jose, Los Angeles and other places. Last week Ernest Ingersoll, correspondent, and Allen C. Redwood, artist of Harper's arrived in San Francisco, and left yesterday for the redwood forests of Russian River. It is their intention to describe and illustrate the leading features of the lumbering business. After doing the Russian River country they will visit the extensive grain fields of Oregon, and spend some time at the headwaters of the Columbia. It is understood that the publishers of the Century Magazine have a corps of artists and correspondents on the way to California.—S. F. Call.

NORTHERN NEVADA.

Something About Mines—The Decline of Mining Interests—Stock Raising and its Political Significance—Fertile Valleys—The Climate and Geography.

[Correspondence of the Record-Union]

ELKO, NEV., May 8, 1882.

A personal observation of several of the counties of Northern Nevada recently made has convinced me that the State is not at present in a very flourishing condition. It is useless now to discuss the accuracy of any of the numerous causes assigned for the apparent decay. The principal cause, however, is indisputable. The mines all over the State have failed for several years to yield in accordance with the expectations based upon former productions. This partial failure has carried with it a corresponding depreciation of values, and a withdrawal of all kinds of incidental business no longer necessary to sustain the former mining activity.

EUREKA

Possibly may be considered an exception to the general statement that none of the mineral districts of Eastern Nevada have fulfilled the magnificent anticipations of their discoverers. Not that they are absolute failures, or likely to become such. Austin, Unionville, Paradise, Lewis Cherry Creek and Pioche still retain a considerable mining population, hopeful and industrious, and the time may soon come when a mineral resurrection may restore the old-time cheerfulness. In Elko county Tuscarora is not the bustling town of five years ago, but it is still considered a good camp, and liable to speedily become a better one. But we look in vain for the once flourishing Mountain City, Cornucopia, Mineral Hill, Sprucehead and Buel which predicted great things ten years ago; and even Bullion City, in Railroad district, is still a plant of slow growth.

The slow, steady tide of emigration toward the north, east, and south, shows a lack of faith in any immediate revival of business activity. This constant drain of population, of course, carries with it a corresponding injury to the teaming, mercantile and agricultural interests, destroying the demand, and causing a general spirit of unrest and uncertainty. These northern counties of Humboldt and Elko have particularly suffered from this cause. Three years ago

THE EMIGRATION

From Nevada set strongly toward Washington Territory; two years ago toward Arizona and Colorado; last year toward Wood River and Mexico; and this Spring Idaho and Montana are recruiting from Northern Nevada, particularly Wood River, Butte City and the Yellowstone being the favorites. I find this true among the resident population here, and expressed by the large number of passengers on the railroad northward bound. First impressions formed along the line of the Humboldt river are generally unfavorable of the country. The scenery is not inviting. Dusty, sage-brush plains, backed by black, frowning mountains, are not attractive. The stranger recalls the tales of the 49ers, closes his window with a jerk, and loses his curiosity in something more entertaining than rocks and artemisia. This continues most of the year. Sage-brush may have a lively green for a couple of months, but the Spring is late and short. In fact, it can be said to scarcely exist at all. Winter jumps suddenly into Summer; storms and chilly winds are speedily succeeded by excessive heat. In June the hills are bright with flowers, and the river banks green with willows. In September all is brown again, hot and dusty. In the western part of the State, about Reno and Carson, the Summer comes earlier and stays longer; but as far east as Elko county frosts are not untroubling even in August, though seldom doing much damage for a month later. This Spring the season is over

A MONTH BEHIND TIME.

And can hardly be said to have yet put in an appearance anywhere in Nevada. Snow at this date still marks the line along the mountain ranges of the Humboldt, but the main valley is dry, and occasionally dusty. But hidden away behind those gloomy mountains in the distance there are hundreds of fertile valleys undreamed of by the stranger. Paradise and Quinn River, in Humboldt, and Baby, Lamoille, Clover and Independence, in Elko county, are dotted with the houses of farmers whose isolation has been compensated by gradual prosperity, evidenced by improvements that would do credit to any country; supported by home markets in adjacent mining towns, and the increase of sheep, horses, hogs and cattle. If some of these anxious emigrants from the East who load the cars and tramp the line could be persuaded that anyone along the line of the railroad could possibly speak the truth, perhaps more of them would find those valleys and go to work at \$25 or \$35 per month. A good workman can get these wages at this season of the year. But agriculturists here are mainly dependent on home labor. A man bound for California usually goes to San Francisco and fares worse; the old settler stays on his ranch and raises barley. This business was, however, overdone last year. Too many confined themselves to barley alone. The demand fell off, the prices fell down, and a general growl followed. Now they have commenced plowing for the crop of 1882, and some have grown wiser and determined to add a little wheat to the grist. Eureka has been the usual market for barley raised in Elko, but the price has so depreciated that some was even shipped to California last winter. This was exceptional, and not likely to occur often.

ONE OF THE LEADING INTERESTS

Of Eastern Nevada is stock-raising. Occasionally a disappointed and disgusted miner is heard to declare that in his opinion that is all this country is good for. These rolling, grassy hills

are natural and immense pastures. Thousands of cattle are annually driven to Wyoming Territory, and shipments frequently made to San Francisco and Chicago. England's roast beef is largely fattened on Nevada's table-lands, California capitalists have found considerable use for their money in this business. Many industries are subordinated to this interest. Many old issues and antagonisms, fought over and settled long ago in California, have been, and to some extent still are, live questions in Nevada—the rights of settlers and of land monopolists; water privileges; fence or no fence. Such questions as these have more or less, at different times, agitated the people, and made or unmade parties and politicians. These issues are gradually settling themselves satisfactorily by the settlers allowing the stockowners cattle to tear their hides into rags against barbed-wire fences, or by the settlers themselves becoming stockowners in a smaller way. Necessity as well as inclination compelled this course. As a general rule the stock interest has been more successful in the Legislature and in the Courts than the opposition. Its energies were better concentrated, strong in the power which wealth gives over many employees dispersed and personally indifferent, and over interests and affairs remotely or indirectly interested. Such an influence must always possess a financial and political power even within a State as distinctively classed as mineral as this. More than once, united to the other

DISCONTENTED ELEMENTS,

It has materially assisted to change the political complexion of the State. The defeat of Tittle in 1879, of Dr. Hazlett in 1874, and the election of Governor Bradley, was not due to any change of political sentiment. A community of interest and strength of personal association between Republicans and Democratic land claimants and cattle owners, had more to do with it than popularly supposed. When these political interests have combined the other way, as in some more recent Senatorial elections, they were, of course, invincible. During the past year stock men have been unfortunate. The Winter was long and severe. The thermometer at Halleck went down to thirty degrees below zero, and the snows were deeper than for many years. Cattle were starved and frozen by the thousands. Estimates of losses are generally above the mark, especially just before the Assessor is expected; but reasonable men acquainted with the country estimate the loss in Elko county at from 25 to 40 per cent. From Battle Mountain eastward and northward the severity of the Winter proved the most disastrous, and especially about Halleck, Wells, Mary's River, and the Bruneau. The name of Nevada was misapplied to this State. It is usually not an exceedingly snowy region. Being from 3,000 feet above the sea, to 10,000 feet in its higher peaks, it is cold, dry and healthy; but more snow falls in any Eastern State in the same latitude than here.

THE SIERRA NEVADA RANGE

Walls out and drains the damp California winds of most of their moisture before they reach the dry basin of the interior. Southern Nevada, in fact, is sensibly affected by the dry and rainy seasons of Arizona and Mexico. Humboldt and Elko counties receive more than the average rain and snowfall. They are affected by the moist winds of the Columbia river that break through the Cascade Range at the Dalles, wet with Oregon mists and the Chinook winds of Washington Territory. Thunderstorms and snow are more frequent in the northern portion of these two counties than elsewhere, the streams are larger, the grass more luxuriant, and wild fruits are abundant. Here, too, in the Bruneau mountains, is the largest and finest body of pine and spruce timber in the State. This range is the sportsman's paradise in the fall, for anything, from a trout in the river to a bear in the brush. Just now the inclinations of its neighboring residents naturally turn to satisfying their bodily appetites with the first run of salmon. Thus striking a balance-sheet, these three leading interests of the State, locally considered, have materially equalized the general losses and profits. It leaves these two northern counties with a reduced rate of taxation with an average assessment, and a reasonable prospect of a permanent future, available, at least, to the numerous children now growing up within them.

SUFFOLE.

About Edward Stokes.

Edward Stokes, the man who shot Col. Jim Fisk, a few years ago, seems determined to keep himself in view. He is prominent in sporting events, where his clear-cut handsome face and close-clipped white hair make him noticeable. He always dresses in the extreme of style, and is usually accompanied by one or two well-known Wall street operators or men about town. His last act was to advance \$10,000 in cash to William Hamilton, who bought with it a third interest in the San Francisco Miners. This makes Hamilton one of the firm of Birch & Backus, who have as much business as they can play to all the year round, and of course Hamilton has struck a good thing. The part Stokes plays in the affair is rather unique. He appears as the wealthy philanthropist, who, seeing a competent and engaging young man enjoying a good salary at the Standard Theater, at once withdraws him and makes him a partner in the most prominent and paying minstrel firm in the country. This is what his friends say: "Big heart has Stokes. Great heart. Devilish good fellow, too. Always help a friend." When he is dead some one will deliver a panegyric entitled: "The Heart of a Murderer." And all New York will weep while Beecher and Talmage will vie with each other in producing their several eulogies.—[Washington Star's New York Letter.]

The Democratic Congressional Convention of the Seventh Indiana District has nominated William E. English, son of the Hon. William H. English, of Indianapolis.

BREVITIES.

Don't forget your bath at Pechner's to-day.

Cherries are in market, but those we have seen are a very scrubby lot.

For a nice, pleasant bath, hot or cold go to Pechner's on Virginia street.

The District Court simply met yesterday and adjourned until to-morrow.

The farmers of Washoe Valley are putting in their Spring work. In some places the alfalfa looks well.

Compound sage powder for constipation for sale by Osburn & Shoemaker.

Blakely & Stoddard have a fine lot of Truckee trout on hand. Call around this morning and get one.

Remember to take a bath at Pechner's to-day. Hot and cold water, and a shower, clean towels, etc.

The prisoners are now at work in the court house yard digging holes for trees which the Sheriff intends to plant.

Have you tried the new and exquisite perfume "The Riverside Bouquet." It is really elegant, and to be had only at Queen's Drug Store.

Fred, at the Palace Restaurant, will spread a fine Sunday dinner to-day, including roast turkey, dove pot-pie, and strawberries and cream.

George Cunningham was in from Sierra Valley yesterday. He said he knew nothing new, except that he was training a couple of grasshoppers for the State Fair.

The masons will renew work to-morrow on Hoffman's new brewery, and there will be a sufficient quantity of brick to ensure continued work until the structure is complete.

Services in the Baptist Church to-day at 11 A. M. and 7:30 P. M., by Rev. E. B. Hatch. Songs to be sung, "Spirituals," "Psalms," "Christian Faithfulness." Sunday School at close of morning service.

Mr. Hagerman informs us that on Thursday last the wind blew so violently in Surprise Valley that the passengers in the Surprise Valley stage had to get out and hold the stage down to prevent it from being blown over.

Everything is lively at Geo. Becker's Pacific Brewery. New boilers have been put in, an increased number of kegs procured, and the manufacture of beer commenced on a larger scale than ever. Mr. Becker has already received a large number of orders from Susanville and other places up north.

Frauk Cutts has just completed the burning of one kiln of 115,000 brick, and has commenced on another to contain 250,000. Mr. Cutts understands his business thoroughly, and his bricks are in demand wherever brick work is being done. The price now for large quantities is \$8.50, while for small lots it is \$10 per thousand.

"The Little Giant."

The JOURNAL gave a long and very favorable account of the new ore crushing device called the Little Giant quartz mill; the invention of Mr. James M. Kinkead of Reno. The Carson Index says: "From the description given of the device and the results of its operation it looks very reasonable that the new invention is destined to work a revolution in the reduction of gold and silver ores. We hope it will prove efficient to a degree exceeding the sanguine expectations now entertained by those interested."

Reno Crackers.

The Nevada Cracker Factory, 12 and 14 Virginia street, yesterday offered to the trade its first lot of crackers, comprising butter, picnic and soda crackers. All who tasted the crackers declared them to be just as nice as any made elsewhere. This being the case our people should encourage home industry by buying Reno crackers. The Factory is now prepared to supply all orders, and the crackers can be found at every grocery store in town.

Indian Murderer Arrested.

Day before yesterday Constable Avery discovered that Session George, the Indian who shot Indian Charley here the other day, had gone to Carson, so he telegraphed Sheriff Swift, of Ormsby, to arrest and hold him. Swift did so, and yesterday morning Constable Avery went over to Carson after his man, returning with him on the noon train. Justice Young will give the Indian his preliminary examination to-morrow.

Sudden Illness.

Capt. A. D. Griffin yesterday received a telegram from his wife at Minneapolis that his boy Alvah was dangerously ill with typhoid fever. The Capt. will leave on this morning's train for the East. We sincerely hope he will find his boy alive and improving.

PERSONAL.

Mr. Thos. Freehill, of Virginia, is in town.

Chief Justice Leonard was in town last evening.

Wm. McPherson was up from Washoe yesterday.

P. N. Marker came down from Washoe last evening.

J. C. Hagerman has returned from his trip to Lake City.

J. L. McFarlin has not been feeling well for several days.

State Printer Maddrill is in town on a visit to his old friends.

Ross Lewers, of Washoe Valley, was in town yesterday. Wonder if the Democrats will renominate him this Fall.

A. A. Smith is in town again, after having made the circuit of Montana, Utah and Eastern Nevada. He will only stay a day or two with us.

U. S. Geological Survey.

The Salt Lake Tribune learns from Mr. J. O. Russell, who has recently returned from Washington, that the work of the United States Geological Survey will be continued during the coming Summer with renewed vigor. Mr. Russell will remain in that city a few days and then continue his journey to Winnemucca, Nevada, where he will join his field party and commence afresh the investigations that were left incomplete at the close of the last field season. His wanderings this year will take him from central Oregon southward to Mono Lake in California, the greater part of his work, however, being in northwestern Nevada. The special subject of study is the surface geology of the region to be explored.

Later in the season Mr. A. L. Webster will commence topographical work in the northwestern part of Nevada and will complete a topographical map of the region once occupied by Lake Lahontan, one of the many lakes that filled the valleys of the Great Basin during very recent geological times.

S. M. JAMISON, P. M.

Union's Ore Field.

The Virginia Chronicle of last evening says the output of ore from the Union mine this week is 530 tons. This ore is of good grade. Monday or Tuesday a billion shipment of \$25,000 or \$30,000 will be made. It will be the first shipment for the present month. This billion is now ready, and could be sent away, but it is not desirable to have it arrive in San Francisco on Sunday. The billion yield for May will not fall below \$90,000. Of this the Chronicle is officially informed.

Frost-Fruit Crop Damaged.

Night before last there was a very heavy frost in this vicinity. Early yesterday morning ice nearly a quarter of an inch thick could be seen in many places. Blossoms that were white the day before were turned black, and the fruit crop is expected to be almost a total failure. This is cause for deep regret, for the outlook was favorable, on account of the backwardness of the season, for the largest and best lot of fruit ever seen in this county.

A Crazy Woman's Attempt to Burn the Court House.

A crazy woman named Mrs. Brown, attempted to set fire to the Court-house yesterday noon, by lighting some papers under the stairway. It was discovered and extinguished immediately, and no damage resulted. The woman has been around for a day or two, annoying county officials by demanding money to be sent to San Francisco, or to be given a home in the hospital. She has a little girl with her. The woman now in jail.

Senator Fair Against Woman Suffrage.

The Senate Select Committee on Woman Suffrage, by a vote of 3 to 2, yesterday, agreed to recommend the adoption of Lapham's joint resolution offering a constitutional amendment permitting women to vote. The vote was: Ayes—Lapham, Blair and Jackson; against, George and Fair.

Everything in the line of Fruit and Ornamental trees, supplied from the Arlington Nurseries, at very low prices for cash. W. J. MANSER.

Grasshoppers.

The farmers from the east end of this valley inform us that the grasshopper eggs are hatching out, and that the coming grass will be liable to suffer, for the insects have appetites like crescent saws, and pounce upon each particular blade of grass with blood in their eye. Last year the hoppers left in clouds, and it was hoped that we would be free, but they left eggs enough for "seed." Washoeites die hard, however.

Lead For New Orleans.

Yesterday eight carloads of lead from Palisade was shipped West, consigned to New Orleans, by way of the Southern Pacific Railroad. Several shipments of lead have been recently made by this route, yet people can scarcely realize that there is a continuous line of railroad from Nevada to New Orleans by way of California, Arizona, New Mexico and Texas.

Spring and Summer Suits.

S. Jacobs, merchant tailor, has just received a beautiful assortment of English, French and American cloths, suitable for the Spring and Summer. Those contemplating getting suits to order should call on Mr. Jacobs and examine his assortment and get his prices, and should they decide to give him an order they can feel assured of a first-class fit.

The Nevada District Judgeship.

A Washington dispatch of the 12th reads as follows:

The news of the death of Judge Hillier, of Nevada, of course put an end to the pending bill for the appointment of a new District Judge for Nevada. It may be mentioned as a singular coincidence that just before the receipt of this news on Wednesday evening Cassidy had succeeded in arranging for the passage of the Senate bill by the House of Representatives. On the day following several applicants for appointment as Judge Hillier's successor were ready and filed, the most prominent being George M. Sabin, Judge Richard Rising and M. C. Tilden, of Virginia City. Senator Jones will undoubtedly control the appointment, and, although nothing is yet authoritatively known of his wishes or recommendations, it is conjectured that he will favor General Sabin. It is not probable that Senator Fair and Representative Cassidy will be consulted in the matter, but if they had a voice in the selecting it is understood that Fair would favor Rising and Cassidy Sabin.

A Ponderous Mistake.

The Carson Appeal gets off the following good one:

When Charley Sharp arrived at Winnemucca as delegate to the Grand Lodge of the A. O. U. W., he was mistaken for Uncle George Tudy. The discrepancy in adipose was ascribed to the reported famine stricken condition of Carson City.

SUMMONS.

IN THE DISTRICT COURT OF THE SECOND JUDICIAL DISTRICT OF THE STATE OF NEVADA, in and for the County of Washoe.

The State of Nevada sends to REBECCA E. HICKMAN, greeting.

You are hereby required to appear in an action commenced against you as defendant by John A. Paxton as plaintiff, in the District Court of the Second Judicial District in and for the County of Washoe, State of Nevada; and answer the complaint therein within ten days after the service on you of this Summons (exclusive of the day of service), if served in said County, or twenty days if served out of said County, but within said District, and in all other cases forty days; or judgment by default will be taken against you according to the prayer of said complaint. The said action is brought to recover forty-five hundred dollars, with interest from October 15th, 1880, at one and one-half per cent. per month, and 117 40 dollars with like interest from Nov. 15th, 1880, and to foreclose a mortgage given to secure the same, together with ten per centum on the principal and interest thereof as an attorney's fee, upon the following described property, situate in Washoe County, Nevada, that is to say: The South ½ of the Northwest quarter, and the North ½ of the Northwest quarter of section 6, township 19, North of range 20 East, M.D.M.; also lot 2 of the Northeast quarter of section 6, in township 19, North of range 20 East, in 22 two hundred and forty acres of land.

Also the Southeast quarter and East ½ of the Southwest ¼ of section 4 in township and range as aforesaid; in all two hundred and forty acres of land.

Also lot 7 and the West 35 feet of lot 8 of G. A. Richardson's survey, in block 4, Western Addition to the town of Reno, and lot 12, in block 2, and the East 50 feet of lot 1, and the West 25 feet of lot 2, in block 5, in the Western Addition to Reno.

Also 250 shares of the capital stock of the North Truckee Ditch Company, a corporation, and the right to hold and use two hundred and sixty inches of water, represented in the said shares of capital stock, and flowing through the ditches of said corporation; also the sum of \$18 with interest at one and one-half per cent. per month from December 15th, 1880; the sum of \$20 with like interest from January 26th, 1881; the sum of \$18 75 with like interest from March 15th, 1881, and for twenty-five per centum upon the said last three mentioned sums, with interest, expenses of collecting the same, Plaintiff prays for general relief.

All of which will more fully appear from the Complaint which is on file in the office of the Clerk of said Court at Reno, in said County, and you are further notified that if you fail to appear and answer said Complaint, the said plaintiff will apply to the Court for the relief demanded.

In testimony whereof, I, C. S. VARIAN, have hereunto set my hand this 23d day of March, A. D. 1882.

C. S. VARIAN,
Plaintiff's Attorney.

Reno, March 29, 1882.

DR. SPINNEY

NO. 11 KEARNEY ST.

Treats All Chronic and Special Diseases.

YOUNG MEN

WHO may be suffering from the effects of youthful follies or indiscretions, will do well to avail themselves of this, the greatest boon ever laid at the altar of suffering humanity. Dr. Spinney will guarantee to forfeit \$500 for every case of Seminal Weakness or private disease of any kind or character which he undertakes and fails to cure.

MIDDLE-AGED MEN.

There are many at the age of thirty to sixty, who are troubled with too frequent evacuations of the bladder, often accompanied by a slight smarting or burning sensation, and a weakening of the system in a manner the patient cannot account for. On examining the urinary deposits aropy sediment will often be found, and sometimes small particles of albumen will appear, the color will be a thin milky hue, again changing to a dark and torpid appearance. There are many men who die of this difficulty, ignorant of the cause, which is the second stage of seminal weakness. Dr. S. will guarantee a perfect cure in all such cases, and a healthy restoration to the genito-urinary organs.

Office hours—10 to 4 and 6 to 8. Sundays from 10 to 11 A. M. Consultation free. Thorough examination and advice, \$5.

Call or address,

DR. SPINNEY & CO.,

No. 11 Kearney St., San Francisco.

P. S.—For private diseases of short standing a full course of medicines, sufficient for a cure, with all instructions, will be sent to any address on receipt of \$10.00.

AYER'S CATHARTIC PILLS

FOR ALL THE PURPOSES OF A FAMILY PHYSIC, CURING

Costiveness, Jaundice, Dyspepsia, Indigestion, Dysentery, Food Stomach and Bileth, Headache, Erysipelas, Piles, Rheumatism, Eruptions and Skin Diseases, Biliousness, Liver Complaint, Dropsy, Tetters, Tumors and Salt Rheum, Worms, Gout, Neuralgia, as a Dinner Pill, and purifying the blood, are the most congenial purgative ever perfected. Their effects abundantly show how much they excel all other Pills. They are safe and pleasant to take, and powerful to cure. They purge out the foul humors of the blood; they stimulate the sluggish or disordered organs into action; and they impart health and tone to the whole being. They cure not only the every day complaints of everybody, but formidable and dangerous diseases. Most skillful physicians, most eminent clergymen, and our best citizens, send certificates of cures performed, and of great benefits derived from these Pills. They are the safest and best physic for children, because mild as well as effectual. Being sugar coated, they are easy to take; and being purely vegetable, they are entirely harmless.
